

Iso-Mix

Sound-insulated inline mixed-flow fans

Use

- Supply and extract ventilation systems installed in various premises with high requirements to the noise level.
- For ventilation air ducts requiring high pressure, powerful air flow and low noise level.
- Compatible with Ø100 up to Ø 315 mm air ducts.

Air flow:
up to 1920 m³/h
533 l/s

Power:
from 24 W

Noise level:
from 23 dBA

Design

- The casing is made of polymer-coated steel, internally filled with 50 mm mineral wool thermal- and sound-insulating layer.
- Special inner perforation of the casing and sound-insulating material are designed for wide-frequency sound absorbing.
- Mixed-flow impeller made of high-quality plastic.
- The diffusor, the specially profiled impeller and directing vanes provide high performance and powerful pressure combined with low noise operation.
- External airtight terminal block on the fan casing for power supply.
- Mounting brackets on the fan casing for mounting to the floor, to the wall or ceiling.

Motor

- Double-speed single-phase high-efficient motor with low energy demand on ball bearings.
- Overheating protection due to built-in thermal switches.
- Motor ingress protection rating IPX4.

Speed control

- Speed selection with a built-in speed switch (US option) or an external multi-speed controller (specially ordered accessory).
- Smooth speed control is possible either with an integrated speed controller (FR option), an external thyristor or transformer speed controller (specially ordered accessory) when connected to the maximum speed terminal.

Mounting

- Due to its compact design the fan is the ideal solution for mounting in limited spaces.
- The fan is suitable for mounting in any section of the ventilation system from intake to the end of the ductwork.
- Wall or ceiling mounting with a special mounting plate on the fan casing.

Modifications and options

- T:** turn-off delay timer adjustable from 2 to 30 minutes.
- US:** built-in three-position speed switch.
- FR:** built-in smooth speed controller adjustable from 0 to 100 %. The fan is supplied with power cable and IEC C14 plug or mains plug (**FR1**).

- G:** speed and temperature controllers with external temperature sensor that is fixed on 4 m cable. The fan is supplied with power cable and IEC C14 plug or mains plug (**G1**).

- GI:** speed and temperature controllers with integrated temperature sensor. The fan is supplied with power cable and IEC C14 plug or mains plug (**GI1**). The G and GI modifications enable automatic speed control depending on room temperature and offer the optimal ventilation solution for premises requiring permanent temperature control as greenhouses, orangeries, etc.
- W:** power cable and IEC C14 plug or mains plug (**W1**).
